

## Summary of Changes to the Faculty Performance Evaluation Document (FPED)

The Faculty Affairs Team (FAT) has been reviewing the Faculty Performance Evaluation Document (FPED) for currency. Attention has been focused primarily on ensuring that the nomenclature used in the FPED is up-to-date. Minimal changes have been required. They are identified in the attached document through "Track Changes."

Two substantive changes are recommended and also presented. The first addresses the Performance Improvement Plan and is found on pages 7-8. The second recommendation is to change the date for submission of the Professional development Plan and the Performance Improvement Plan from September 30 to September 7.

The FAT is continuing to deliberate over the FPED and anticipates submitting additional recommendations for substantive changes in the near future.
