Instructions for Degree/Major Revisions:

- Complete this form when the proposed changes will impact the words, numbers, or symbols as presented in the current catalog copy (often referred to as “changing the footprint of the catalog”). **Changes to Program Admission Requirements and Additional Graduation Requirements** should also be included in this proposal.
- Catalog copy is available at <http://www.fgcu.edu/catalog/>. Scroll down to “Academic Programs” on the left navigation bar. Select Undergraduate Programs. Select the Program. Select “Print Program Details” in the upper right corner. Copy and paste catalog copy into a Word document. Turn on the tracking function (be sure that both additions and deletions appear in the tracking). Update the catalog year and make edits. Save the document as a Word file.
- When the proposed changes are approved by the College Curriculum Team, the College Administrator will send the following to Lucero Carvajal in Academic and Curriculum Support (ACS) no later than **October 31** for review by the University Undergraduate Curriculum Team (UUCT):
 - An electronic MS Word version of the **tracked** catalog via email.
 - A color hard copy of the Degree/Major Revision Proposal with appropriate signatures via campus mail.
 - An electronic MS Word version of a degree curriculum map showing prerequisites and sequencing for all courses via email.
- If changes are for courses only and there is no impact to the catalog copy, this revision form is not necessary. When these “**stand-alone**” courses have been approved by the College Curriculum Team and noted in CMS, the CMS College Administrator should send a list to Lucero Carvajal in ACS. The same October 31 deadline applies.
- All changes to courses are completed via the Curriculum Management System (CMS) <https://midas.fgcu.edu/acadaff/scns/default.asp>
- Reminder: The prefix/number for a new course is handled one way in the catalog copy and another in CMS. In the catalog copy, identify a new course with the suggested title, suggested prefix and course level, plus XXX (e.g, ART 4XXX). When final approval for the course prefix/number is received from Statewide Course Numbering System, the catalog copy will be updated. In CMS, a new course is requested by entering the suggested title and suggested prefix/number with no XXX. See instructions in CMS for selecting an appropriate suggested prefix/number.

Kazuo is correct. We will replace TRA 3151 with TRA3155, however, to ensure that for any students who have already taken TRA 3151, or have been approved transfer credit for it, that they are not affected. We make a note in the scheduling of courses that TRA 3155 replaces TRA 3151. This is the approach that we used when TRA 3151 replaced MAN3504 some years back.

Thanks

My understanding is that we will not offer the two courses simultaneously. For the old catalog students, we put TRA 3155 will substitute TRA 3151 on the schedule or something like that.

OK. I will make a small note on the materials to indicate there is no delete form expected for TRA 3151.

Are both TRA 3155 and TRA 3151 planned to be offered simultaneously? If yes, the college may want to prepare to ensure that students register for the appropriate course. (For example, how will students in old and new catalogs be advised or students who took TRA 3151 and now need to repeat for grade forgiveness?)

No. We will keep TRA3151 for a few years to be safe and then delete it.

Hi Kazuo,

The Add form for TRA 3155 and the corresponding materials mention that TRA 3155 is intended to replace TRA 3151. Will there be a Delete form created in CMS for TRA 3151?
